## QUALIFICATIONS

This proposal is submitted in response to Request for Proposal (“RFP”) 18-08, Docket No. TBD, *In re: Rules applicable to electric service providers’ provision of service to load outside its historical footprint and rates that may be offered for industrial load.* Patrick Miller LLC (“Patrick Miller” or the “Firm”) respectfully proposes to assist the Commission’s Staff with the referenced docket.

Patrick Miller exceeds the minimum requirements set forth in RFP 18-08 and in the Commission’s General Order issued November 10, 2014. The Firm is a Commission approved law firm and has successfully assisted Staff in electric utility matters. The Firm is currently assisting LPSC Staff in the Vinton Public Power Authority matter and the Slidell Airport matter. A listing of matters in which we have appeared before the LPSC is attached as Exhibit “A.”

Representative attorneys of the Firm are admitted to practice before the Supreme Court of Louisiana and have been actively engaged in the practice of law for at least five (5) years. They are admitted to practice before all state and federal courts of the State of Louisiana. They are also admitted to practice before various federal appellate courts, including the Supreme Court of the United States. The Firm and its attorneys have extensive experience in contract review, negotiation, regulatory compliance and commercial litigation, including proceedings before administrative law judges and federal and state agencies, commissions, and boards.

The Firm is experienced in participating in cases involving public utility regulation, and other regulatory issues on administrative and judicial levels, including the presentation of direct testimony, report and recommendations, preparation of written discovery and responses, assistance in developing cross examination of adverse witnesses, analysis of comments and exceptions filed to recommendations, and taking and defending depositions. The Firm is experienced in the presentation of recommendations involving public utility regulation, and other regulatory needs on administrative and judicial levels.

In this matter, there will be examination of existing Orders, Rules, and Regulations as such pertain to restrictions on the ability of an electric service provider to serve load outside of its historical footprint and regulation of rates thereon, as well as potential rulemaking on such issues. We are qualified and have the requisite experience for these tasks. We are familiar with the rulemaking process and we have knowledge of the “300 Foot Rule”; General Order No. 2 dated July 1, 1921; NARUC approved cost-of-service methodologies; cost recovery mechanisms for power supply resources (including rates of return, FRPs, and related Orders); determination and calculation of appropriate rate bases; traditional cost-of-service and cost allocation methodologies supporting revenue requirements among classes of customers; cost allocation methodologies for allocation of investment and expenses between affiliates and between holding

companies and operating subsidiaries; transfers of investments and costs between operating companies and the provision of services between affiliates; Commission methodologies for calculating avoided costs pursuant to the Commission's Orders thereon and amendments thereto; Commission Order dated March 12, 1974 prohibiting "promotional practices" by public utilities; and MISO and SPP tariffs, rules, planning processes, and LMP.

The Firm possesses a thorough understanding of the Commission's business and governing statutes and regulations. The Firm has a working knowledge of the Commission's ratemaking and jurisdictional issues, and applicable Commission and Federal regulations. As a result of the Firm's extensive business practice, Patrick Miller has considerable experience in cases involving accounting, taxation, depreciation, and other regulatory issues.

The Firm's attorneys have successfully litigated before the Commission; however, the Firm currently does not represent any private clients before the Commission. Neither the Firm nor its members are engaged in any representation that could result in a conflict of interest.

We have examined the "Overview" and all sections of the RFP, and have also reviewed the preliminary application filings by the utility. We are confident that we can effectively handle all tasks required to assist Staff. The Firm has

professional liability insurance providing coverage in the amount of \$2,000,000.00 per claim, as demonstrated by the attached Declarations Page.

### **PROPOSAL**

Patrick Miller will work with Staff to review existing statutes, cases, Commission Orders, Rules and Regulations or Policies, and Federal statutes, decisions, Rules and Regulations to determine the impact of these existing sources of law on the ability of an electric service provider to serve load outside of that provider's historical footprint. Patrick Miller will work with Staff to review existing statutes, cases, Commission Orders, Rules and Regulations or Policies, and Federal statutes, decisions, Rules and Regulations to determine the impact of these existing sources of law on rates that may be offered to serve industrial loads outside of a provider's historical footprint. Additionally, whatever proposals or position papers that are offered by interested utilities will be examined. Patrick Miller will work with Staff to assess the effects of current law on these load/rate issues and to determine the extent of amendments or new rules and regulations needed. We will work with Staff on drafting reports and any proposed amendments or new rules and regulations. We will draft requests for comments and review responses. We will work with Staff on ensuring that any amendments or new rules and regulations are properly published and noticed for comment, and participate in all technical conferences and open sessions in which this matter is

discussed. We will coordinate revisions and participate in all steps needed to act upon and implement amendments or new rules and regulations.

We understand that the estimated period of representation in this matter is approximately four months. We have the resources and manpower to undertake this representation. A proposed timeline/plan of action is as follows:

1. Initial review of issues and all existing state and federal law to determine impact of existing law on load/rate issues – two weeks.

2. Initial recommendation regarding impact of existing law and need for and nature of adjustment by amendments or new rules and regulations – one week.

3. Publication of any proposed amendments or new rules and regulations and request for comments and evaluation of comments plus informal meetings and negotiations, technical conferences, and finalization of any amendments or new rules and regulations – two months.

4. Preparing for and participating in formal rulemaking – one month.

### **BUDGET**

Patrick Miller proposes to complete all actions for the scope of representation as set forth in the RFP within a total budget not to exceed:

**\$68,700.00** in professional fees and **\$1,100.00** in out-of-pocket costs or expenses.

Statements for professional services and costs incurred will be rendered monthly and shall specifically identify and describe all work performed, the person

performing such work, and the time and charge for such work. Legal services will be billed strictly on the basis of the time actually spent by lawyers and legal assistants in handling this matter. The Firm's statements shall additionally show the total amount billed to date and the authorized original estimate. Bills will be rendered in strict accordance with the Commission's guidelines and expenses shall also be separately disclosed with the proof of such expenses attached.

The Firm anticipates that Patrick H. Patrick and Pierre V. Miller II will perform most of the work on this matter. These primary attorneys currently bill at rates of \$275.00 per hour. Additional attorneys who may work on this project are Laurence R. DeBuys IV who bills at \$275.00 per hour and Steve Mattesky who bill at \$225.00 per hour. Legal Assistants bill at a rate of \$100 per hour. The Firm will attempt at all times to staff this matter in the most efficient and economical manner.

We won coverage for a business assured in the leading Louisiana case on "advertising injury" coverage under a CGL policy. *Carnival Brands v. AGLI*, 726 So. 2d 496 (La. App. 5th Cir.), writ denied, 740 So. 2d 636 (La. 1999).

Originally retained as local counsel to defend against claims of patent infringement, trademark infringement, and trade dress misappropriation, when our responsibilities were expanded to include discovery of the plaintiff's damages expert, we succeeded in obtaining a pre-trial order disqualifying plaintiff's damage expert from testifying at trial. After entry of a trial court judgment in favor of the plaintiff exceeding \$1 million, we were asked to take on a more significant role in appealing the judgment to the Federal Circuit Court of Appeal. The Federal Circuit reversed and remanded the case for further proceedings. Asked to take over as lead counsel for the defense, our firm was instrumental in obtaining a favorable settlement for our clients after the first day of trial. *Hartco Engineering, Inc. v. Wang's International, Inc., Pilot Automotive, Inc., Pep Boys-Manny, Moe & Jack, Inc. and Overton's, Inc.*, 04-1480 (Fed. Cir. 7/25/2005), 142 Fed. Appx. 455, 2005 U.S. App. LEXIS 15194 cert. denied, 546 U.S. 1172 (2006).

In a “borrowing employer” LHWCA case, we gained reimbursement for the lending employer over the borrower’s objection that a contract barred the claim. *Harbor Constr. v. Global Fabrication*, 2008 La. App. LEXIS 1306 (La. App. 4th Cir. 2008).

In a “borrowing employer” state compensation claim, we recovered contribution for the lender over the borrower’s contention that the parties agreed to a different allocation. *Omega v. Thornco*, 2008 La. App. LEXIS 1156 (La. App. 1st Cir. 2008).

We represented a seafood processing equipment manufacturer in the last round of litigation with another manufacturer and achieved a global settlement that ended, on mutually beneficial terms, over 40 years of antitrust and patent infringement litigation between the parties.

We represented the employer in a state workers' compensation case in which the appellate court held that a claimant loses the right to benefits by failing to follow physician instructions to engage in "work hardening." *Williams v. BET Constr.*, 857 So. 2d 629 (La. App. 1st Cir. 2003), *writ denied*, 862 So. 2d 994 (La. 2004).

Our attorneys successfully defended a health insurer who cancelled two insurance policies, the first for failure to pay the premiums timely and the second for false and material representations in the application. *Viada v. Blue Cross of Louisiana*, 8871 (4/12/1988), 524 So.2d 101.

The following is a summary regarding our law firm’s appearances before the Louisiana Public Service Commission:

In 1994, we represented Allvend, Inc., a Customer Owned Coin Operated Telephone (“COCOT”) operator in the matter entitled, “Louisiana Public Service Commission v. Paytel Enterprises, Inc. and USA Telecom, Inc.” Docket No. U-20939 on the docket of the Louisiana Public Service Commission. Allvend intervened with a complaint against both Paytel Enterprises, Inc. (“Paytel”) and USA Telecom, Inc. (“USA Telecom”), alleging defamation and many anticompetitive acts. The Commission found Paytel and USA Telecom committed the violations, imposed fines, required a security bond, and issued cease and desist orders against both defendants. Since then we have not represented a private party before the LPSC.

In 2010 we were awarded representation of Commission Staff in a fuel audit of CLECO. Our involvement was minimal given the resolution of all significant issues by Staff.

In 2016, we represented Staff in a fuel audit of Legacy EGSL, Docket No. U-32245. We were extensively involved in the matter, which concluded with a settlement under which ELL refunded \$5.044 million to LPSC-jurisdictional Legacy EGSL customers.

We assisted Staff in the “Dry Cask” matter, Docket No. U-34298, concerning FAC recovery of certain expenses incurred in connection with dry storage of spent nuclear fuel and refunds to customers when the utility recovers from DOE for breach of DOE’s contractual obligation to dispose of spent nuclear fuel. A settlement was reached in which allowance was made to include these costs and refunds in FAC filings with periodic reports and adjustment in the event DOE practices or other material aspects change.

We are currently assisting Staff in Docket No. U-34332, *In re Review of Special Order 01-2001 to determine if it remains in the best interest of Louisiana Ratepayers*. This complex matter remains under consideration by Staff and consultants and FERC has been contacted for coordination.

We are currently assisting Staff in Docket No. X-34696, *In re Review and/or facilitation of relocation of certain electric service lines located at the Slidell Municipal Airport in order to facilitate airport expansion*. This matter remains under consideration by Staff.
