Appendix A: Resumes of the Professionals Assigned to RFP 16-08

A. EXECUTIVE SUMMARY

United Professionals Company (“UPC”), a member of the Sisung Group, is pleased to submit its response to the Louisiana Public Service Commission’s (“LPSC” or “Commission”) Request for Proposals 16-08 for an Outside Regulatory Consultant (“RFP”). UPC is a New Orleans, Louisiana-based financial advisory and consulting company. As a Louisiana-based regulatory consulting firm, our awareness of, and concern over, the importance of the issues presented in Docket No. R-34026 cannot be overstated.

UPC is uniquely situated to provide the Commission with unparalleled assistance in relation to Docket No. R-34026. UPC provided the consulting services to the Commission for Docket No. U-33434 (the Cleco Merger) which was the docket that identified the issues to be addressed by this docket. Based on that experience, UPC has a distinctive understanding of the considerable undertaking it will be to address the issues to be considered with this RFP with regards to *all LPSC jurisdictional utilities*. The consultant will need to interact with each and every regulated utility and will have to analyze each individual regulated utilities’ capitalization structures. This will be no small undertaking and UPC has the advantage of already having a firm understanding of some of the issues for which the Commission would like clarity.

In addition to the advantages of our specific experience, we believe our professionals are best qualified to address the issues of this docket. For this docket, we will assign a Certified Public Accountant, a Masters of Tax Law, a FINRA licensed Financial Adviser and a PHD in regulatory economics. We are confident that the experience and specialized skill set that we can provide the Commission will allow us the opportunity to best serve the LPSC on Docket No. R-34026 *In Re: LPSC, ex parte, In re: Investigation of tax structure issues for all LPSC-jurisdictional utilities* (hereinafter, “this Docket”) in reviewing the issues related to the Commission’s rulemaking in this Docket.

I would like to further bring to the Commissions’ attention, that this RFP is being considered at the same time as an RFP for Docket No. R-34029 (tax structure issues). We would like to respectfully suggest that we believe that it would be in the Commission’s best interest if the same consultants were to be engaged for both of these Dockets. As was evident with the Cleco Merger, the issues of these 2 dockets are inextricably linked. One of the taxation issues to be addressed is directly tied to an issue of related party capitalization. If the issues were to be addressed differently in the 2 dockets by separate consultants it could lead to an unjust result for either ratepayers or utilities. For this reason, we believe it is important that the issues be addressed cohesively by the same team.

Finally, considering the experience and specialized skill set that UPC would provide, we realize that we might not be the lowest cost respondent for this RFP. If that is the case, I would like to respectfully offer that we believe that the matters to be addressed by this engagement, which would affect every jurisdictional utility of the LPSC, are far too vast, specialized, and important for the lowest cost to be the determining factor for this particular engagement. Accordingly, we are respectfully asking the Commission to primarily consider the experience and expertise being offered by each of the respondents for this docket as they make its decision, and we are extremely appreciative of the Commission's consideration of our proposal in this matter.

Very truly yours,

R. Lane Sisung
Managing Director

B. RESUME QUALIFICATIONS AND EXPERIENCE

1. The Sisung Group

Our professionals are highly educated, experienced, and published in multidisciplinary areas including:

- Financial Analysis
- Program Design
- Government Relations
- Legislative Advocacy
- Policy Initiatives
- Financing Transactions
- Legal and Regulatory Budgeting, Planning, and Administration

Successfully utilizing the strengths, talents and expertise of our seasoned professionals, we are able to provide customized, quality service to our clients. Our professionals have represented local, state and federal issuing authorities, cities, parish and county governments, hospital districts, 501(c)(3) corporations, state agencies, state governments and commissions, and corporations.

As a specialty branch of these financial advisory and consulting services, UPC has built a team of regulatory and utility finance and economics professionals, the members of which were specifically selected for their ability to serve the needs of the LPSC in its dockets. Our team members possess extensive knowledge about:

- Utility financing and capital structures
- Appropriate accounting standards and practices for utilities
- Applicable cost-of-service cost methodologies for utilities
- The basic components and requirements calculating utility return on equity
- The basic components and requirements of Formula Rate Plans, Rate Stabilization Plans, etc.
- The cost allocation methodologies for the allocation of investment and expenses among affiliates, including the relationship of the holding company to its subsidiary operating companies, the transfer of investment and costs between operating companies, and the provision of services among affiliates; and
- Utility credit rating processes

Our consultants also have experience in analyzing the operations, books and records of utility companies for the purpose of setting just and reasonable rates, including, but not limited to:

- Calculation of rate base,

- Capital structure and Rate Stabilization Plans/Formula Rate Plans, or like methods of rate evaluation for utilities

UPC's team of regulatory and utility finance and economics professionals is well qualified to provide the services that the LPSC has requested in Request for Proposal 16-08. We have extensive practical experience in the field of public utility regulation that includes previous experience and success in regulatory rulemaking processes. Our professionals have significant personal experience before the LPSC and other regulatory agencies.

Collectively, the UPC professionals possess a full understanding and ability to assist Commission Staff in reviewing the issues related to this Docket. The combination of our team members' educational backgrounds, achievements, specific expertise, and prior experience serving the Commission best positions us to provide the LPSC and Staff with the most extensive and comprehensive consulting services available to it on this Docket.

The resumes of our highly qualified professionals who would be assigned to assist the Commission, as well as the functions that would be performed by each, are detailed in *Appendix A*. We have included a full resume for each staff member and consultant who will be assigned to

work on this Docket, including names, positions, education, and professional experience. UPC reserves the ability to supplement its team, if necessary, and with approval of Commission Staff, in order to provide the Commission with the very best service on this Docket.

C. SCOPE OF REPRESENTATION

We are fully prepared to assist the Commission's in-house Staff in formulating issues list(s), drafting discovery requests to intervenors and reviewing responses to such requests, reviewing comments filed by intervening and interested parties, participating in any technical conferences, scheduled drafting and reviewing reports and recommendations and participating in open sessions wherein the matter is discussed.

1. Plan of Action

Detailed below is an outline of UPC's Plan of Action for assisting the Commission in Docket No. R-34026. UPC fully understands, however, that if chosen, the Commission and its Staff shall determine how the tasks will be carried out.

a. Methodology

The methodology that UPC proposes to utilize in serving the LPSC in Docket No. R-34026 leverages our team's in-depth understanding of Commission and State of Louisiana law and precedent, the regulatory process, and our specially-selected consultants' prior experience serving in related LPSC dockets. The UPC approach uses a standardized methodology that ensures efficiency, effectiveness, and proper controls.

b. Approach

If UPC is appointed as the Commission's outside contract regulatory consultant, our team will work with Commissioners, Commission Staff, and involved parties to involve the expertise of our investment banking, Certified Public Accountants, regulatory finance, and legal professionals, in addition to that of our economic advisors, to ensure that we have an in-depth understanding of the policies behind the utility industry's capital structure practices. We will advise Commissioners and Commission Staff of our findings throughout the process.

If UPC is selected as the Commission's Outside Regulatory Consultant, our team would actively work to ensure that the Commission and Staff are provided with any and all resources necessary to complete the scope of representation. The UPC approach uses a collaborative, standardized methodology that ensures efficiency, effectiveness, and proper controls. As such, detailed below is an outline of UPC's proposed approach for assisting the Commission Staff in this Docket. UPC fully understands, however, that if chosen, the Commission and its Staff shall determine how the tasks will be carried out.

c. Scheduling Outline

The rule-making RFP calls for an expected six (6) to twelve (12) month period for the scope of representation (“Period of Representation”). Our proposed plan of action consists of steps tailored to the objectives outlined in the Commission’s RFP to conclude twelve (12) months from inception.

We anticipate that the required activities would consist primarily of investigation and analysis into the capitalization policies of other state commissions, the Federal Energy Regulatory Commission (“FERC”), and the capitalization positions of all LPSC-jurisdictional utilities. In addition, we would review any and all Commission orders and other precedents addressing LPSC-jurisdictional investor owned utilities capitalization practices and positions. For this RFP we would leverage our team’s strong knowledge of structural regulatory, financial, legislative and legal issues, in addition to our applied technical understanding of capitalization policies and practices. Our preliminary implementation plan phases include:

Meet and work with Commissioners, Commission Staff, and related parties to establish and distribute a list of the professionals participating in the process and their contact information

- Formulate issues list(s)
- Review comments filed by intervening and interested parties
- Draft and assist in the drafting of data requests to be submitted to all jurisdictional utilities
- Analyze the data responses of all jurisdictional utilities.
- Research similar legislation and/or policies that have been studied, proposed, and/or implemented in other jurisdictions
- Build and develop financial models designed to analyze the effect on ratepayers of utilities capitalization positions
- Plan, participate in, and moderate 1 or 2 technical conferences with Commissioners, Commission Staff, and intervening parties
- Participate in open sessions with Commissioners, Commission Staff, and intervening parties
- Attend Commission Business and Executive Sessions
- Consult with industry-leading regulatory accountants and economists
- Perform Additional Financial Analysis
- Participate in status conferences
- Compile findings of analysis by drafting reports, rules, and policies to be filed with the Commission
- Prepare briefing materials for Commissioners, Commission Staff, and intervening parties
- Assist in the strategy for program approval and implementation, if applicable

- Review final methodology design and propose control mechanisms to ensure that goals would be advanced by implementation, if applicable
- Review methodology documentation, if applicable

d. Workload Management and Distribution

UPC’s staff utilizes a collaborative and fluid team approach. R. Lane Sisung and Paul T. Chastant, III will serve as contacts to LPSC, with Mr. Sisung serving as the primary contact. Mr. Sisung and the team will remain in constant contact with Commissioners, Commission Staff, and intervening parties regarding any and all material matters so as to provide seamless coverage for the LPSC. Together, we will work with Commissioners, Commission Staff and intervening parties to assess needs, determine deliverables and timelines, coordinate our firm’s resources, and schedule meetings with the LPSC and other parties to provide analysis and advice.

Mr. Sisung will draw upon our individual team members’ expertise as needed for understanding and edification on individual issues. By assigning the proper specialist to individual issues as they arise, with Mr. Sisung acting as program administrator, we will be able to effectively meet LPSC’s needs. All of this resource coordination will take place seamlessly.

We anticipate a close working relationship with the Commissioners and Commission Staff. All LPSC personnel will have Mr. Sisung and the rest of his team’s contact information. Commissioners, Commission Staff, and parties will be encouraged to reach out to Mr. Sisung with any questions or concerns. We believe that our process ensures that the work products and deliverables will exceed the quality standards that the LPSC expects from the Outside Regulatory Consultant awarded this contract. UPC fully understands, however, that if chosen, the Commission and its Staff shall determine how the tasks will be carried out.

e. Plan of Action Conclusion

UPC has included this preliminary work plan as reference for discussion with the Commission to demonstrate that we have identified the major tasks needed to successfully complete the project. This preliminary work plan will form the basis of the detailed work plan that will be agreed upon with Commission staff and used to perform this assignment. We believe that our process ensures that the work products and deliverables will exceed the quality standards that the LPSC expects from the outside contract regulatory consultant awarded this contract.

D. COST PROPOSAL

UPC is pleased to submit the following price proposal to the Commission for consideration.

We estimate that the total cost of labor for the completion of this Docket would not exceed \$150,000. Our rates per hour vary per consultant from \$150.00/hour to \$400.00/hour.

Our total labor cost estimate is based on the maximum estimated costs necessary to provide the Commission with the services of a dedicated team of finance professionals and specialty utility regulatory consultants and investment banking professionals. If this project were to take less consulting hours than the hours on which we have based our bid, our total cost would be reduced accordingly.

We estimate that the total expenses necessary for the completion of the project would not exceed \$6,000. Expenses would also be separately disclosed with proof of such expenses attached. UPC would request reimbursement for only those travel-related expenses that are actually incurred. Expenses, where applicable, would be billed in accordance with state authorized rates as specified in the Travel Policies and Procedures Memorandum issued by the State of Louisiana, Division of Administration in effect at the time such expenses are incurred ("Allowable Expenses"). Any expenses that exceed the Allowable Expenses would be borne by UPC, unless otherwise specified by the Commission. Further, billed expenses would not exceed twenty percent (20%) of the total amount of billed fees at any given time.

We estimate that the total cost of labor and expenses for the completion of would not exceed \$156,000 (\$150,000 of professional fees + \$6,000 of expenses).

UPC understands that Staff would be able to request, and UPC would be required to provide, billing information at any time upon Staff's Request. Staff, working with UPC, would review all of the bills submitted for payment, including but not limited to conformity with the planning sessions and any amendments. UPC further understands that the Commission shall have the discretion to impose additional safeguards upon the potential bidders at the time such bids are put up for vote, and that it shall have the right to either accept such additional safeguards, or reject them and withdraw their bid. Further, at any time after UPC is selected and hired, the Staff and UPC may agree to further safeguards.

If selected, UPC bills would be rendered in strict accordance with the Commission's guidelines. UPC would only charge for actual hours of work performed and costs incurred. All UPC bills would be rendered monthly, and specifically identify and describe all work performed, the person performing such work, the hourly rate, the time and charge for such work, and show the total amount billed to date, in accordance with the Commission's guidelines found in August 4, 2014 General Order.

E. CONFLICTS OF INTEREST

Neither the Sisung Group, nor UPC has knowledge of any conflicts of interest that would impair our ability to serve the Commission in this Docket. Below are outlined disclosures that do not present any conflicts of interest, but are being included for the purpose of full disclosure.

G. CONCLUSION

UPC appreciates this opportunity to respond to the Commission's RFP to serve as an Outside Regulatory Consultant to potentially assist Staff in reviewing the issues related to the Commission's rulemaking in this Docket. As detailed in the sections above, UPC and its affiliated Sisung Group companies are multifaceted and have extensive experience in a broad range of regulated public utilities and financially-related areas. Because we are a Louisiana firm, we take great pride in any and all work that we do that benefits the people of our state, and we believe this project provides just such an opportunity.

UPC has built a team of hand-picked regulatory and utility finance and economics professionals specifically for their ability to serve the needs of the LPSC in this Docket. The UPC team has extensive practical experience in the field of public utility regulation that includes similar practice before the LPSC and other regulatory agencies. Our experts are fully prepared to assist the Commission's in-house Staff counsel in formulating issues list(s), drafting discovery requests to intervenors and reviewing responses to such requests, reviewing comments filed by intervening and interested parties, participating in any technical conferences, scheduled drafting and reviewing reports and recommendations and participating in open sessions wherein the matter is discussed.

Our professionals have a distinctive style that encourages personal service, excellence and integrity, while our local presence offers the LPSC the benefits of geographic proximity and a wealth of institutional knowledge about Louisiana's laws, regulations, procedures, organization, political environment and financial position. The aforementioned attributes, combined with our prior experience serving the Commission, would allow us to be immediately effective and responsive to the needs of the LPSC and Staff. Thus, we believe that our proven track record of exceptional quality and integrity in our dealings, our local Louisiana presence, and our professionals' prior experience and expertise offers the Commission an excellent choice for an Outside Regulatory Consultant in this Docket.
