A. EXECUTIVE SUMMARY

United Professionals Company (“UPC”), a member of the Sisung Group, is pleased to submit its response to the Louisiana Public Service Commission’s (“LPSC” or “Commission”) Request for Proposals 16-19 for an independent technical consultant (“RFP”). We hope to have the opportunity to serve the Commission on *Docket No. X-34109 In re: Request for Proposals for outside consultant to assist Staff with the Fuel Adjustment Clause (“FAC”) Audit of Entergy Louisiana, LLC’s (“Entergy” or “the Company”) charges flowed through its Fuel Adjustment Charge, from the period beginning January 1, 2014 through December 31, 2015 (2014-2015)* by assisting the Commission's Legal, Audit and Economic Divisions in conducting a review of ELL’s FAC filings, under the parameters of the FAC Order (hereinafter, “this Docket”).

UPC is a New Orleans, Louisiana-based financial advisory and consulting company. As a Louisiana-based firm, with the majority of our staff and clients in Louisiana, our awareness of the importance of the issues present in the ELL FAC Audit cannot be overstated. For this reason, UPC has built a team of accounting, regulatory, utility finance, and economics professionals, the members of which were specifically selected for their ability to serve the needs of the LPSC Staff on this Docket. The UPC consultants who would serve the Commission and Commission Staff in this engagement have a vast amount of experience with analyzing the operations books and records of utility companies for the purpose of fuel audits, as well as the costing methodologies utilized by the LPSC. We are fully prepared to assist Commission Staff in reporting Staffs findings in writing to the Commission, identifying any irregularities detected in the monthly fuel adjustment calculations that were incorrectly assessed and applied to Louisiana consumer billing statements or which allowed for the recovery of these unauthorized expenses by ELL as a part of the FAC Audit.

UPC appreciates this opportunity to respond to the Commission's RFP. Our professionals are excited about the opportunity to serve the Commission and Commission Staff as an independent technical consultant. Collectively, the combination of our team members’ educational backgrounds, achievements, specific expertise, and practical experience serving the Commission best positions us to provide the LPSC with the most extensive and comprehensive service in this Docket. For more information on our knowledge and experience, please contact the client references that we have provided.

Very truly yours,

R. Lane Sisung
Managing Director

B. RESUME QUALIFICATIONS AND EXPERIENCE

1. The Sisung Group

UPC is a member of the New Orleans, Louisiana-based Sisung Group, which is comprised of related companies that provide investment banking, asset management, venture capital and business consulting and development services to corporations, individuals, institutions and governmental agencies.

Our professionals have represented local, state and federal issuing authorities, cities, parish and county governments, hospital districts, 501(c)(3) corporations, state agencies, state governments and commissions, and corporations.

As a specialty branch of these financial advisory and consulting services, UPC has built a team of accounting, regulatory, utility finance and economics professionals, the members of which were specifically selected for their ability to serve the needs of the LPSC. Our staff of professionals and consultants is experienced with and prepared to analyze the operations books and records of utility companies for the purpose of fuel audits, costing methodologies utilized by the LPSC, and provide expert assistance with respect to the following:

- Appropriate accounting standards and practices for electric public utilities, public utility accounting, and generally accepted auditing standards
- LPSC and FERC approved cost-of-service cost methodologies for electric utilities
- Louisiana Public Service Commission ratemaking, FAC, and jurisdictional issues
- Proper application of the Commission's FAC Order
- Electric utility formula rate plans

Our experience serving the LPSC in prior dockets has left our professionals intimately familiar with transferrable topics and able to perform the following:

- Review FAC filings
- Draft data requests and review responses
- Review accompanying work papers and the company's financial data;
- Review historical data involving prior audits
- Review and analyze ELL's monthly comprehensive fuel adjustment reporting requirements filed with the Louisiana Public Service Commission
- Develop and improve the internal Staff procedures to effectively monitor and evaluate ELL's performance in areas impacting the fuel and purchase power cost that are reflected in ELL's monthly fuel adjustment filings with the Commission
- Review and analyze ELL's monthly comprehensive fuel adjustment filings to assure compliance with all pertinent state and federal regulations
- Participate in formal status conferences, pre-trial conferences, depositions, and hearings
- Prepare for filing audit memoranda and/or pre-filed testimony in support of Staffs ultimate recommendations, together with exhibits supporting the memoranda and/or pre-filed testimony
- Assist in the drafting of applicable motions, exceptions, briefing sheets and orders of the Commission. Additionally, the consultant shall be available to participate in informal

We are fully prepared to assist Commission Staff in reporting Staffs findings in writing to the Commission, identifying any irregularities detected in the monthly fuel adjustment calculations that were incorrectly assessed and applied to Louisiana consumer billing statements or which allowed for the recovery of these unauthorized expenses by ELL as a part of the FAC Audit,

including a written or executive summary which identifies any cost included in the audit found to be in violation and a recommendation as to the appropriate methodology to be utilized by the Commission to provide for recovery of these funds.

UPC has built a team with extensive practical experience in the field of public utility regulation that includes similar practice before the LPSC and other regulatory agencies. Our professionals have significant experience in the presentation of recommendations involving public utility regulation and other regulatory issues on administrative and judicial levels. We are qualified and prepared to review all documentation submitted by any party to the proceeding on any and all issues that are likely to arise in the proceeding. All members of our team have been handpicked for their ability to formulate issues and ultimate recommendations in this Docket.

The resumes of our highly qualified staff of professionals and expert consultants who would be assigned to assist the Commission, as well as the functions that would be performed by each, are detailed in *Appendixes A*. We have included a full resume for each staff member and consultant who will be assigned to work on this Docket, including names, positions, education, and professional experience.

C. PLAN OF ACTION

1. Methodology

The UPC plan of action uses a collaborative, standardized methodology that ensures efficiency, effectiveness, and proper controls. This methodology leverages our team's in-depth understanding of Commission and state of Louisiana law and regulatory precedent, the regulatory process, and our specially-selected consultants' prior experience with fuel adjustment clause-related issues.

2. Approach

If UPC is selected as the Commission's independent technical consultant, our team of consultants would actively work to assist the Commission's Legal, Audit and Economic Divisions in analyzing fuel purchases and usage by ELL for the years 2014 through 2015.

Detailed below is an outline of UPC's proposed approach for assisting the Commission in this Docket. UPC fully understands, however, that if chosen, the Commission and its Staff shall determine how the tasks will be carried out.

a. Development of a FAC Audit Program

UPC's first point of action would be to work with the Commission's Legal, Audit and Economic Divisions to build a FAC Audit Program utilizing the Commission's 1997 FAC Order and results of prior FAC audits as a guide. We anticipate that the development of FAC Audit Program would require an estimated two (2) months to complete. In developing its FAC Audit Program, UPC consultants would build a matrix of areas of concern and potential issues based on the policies contained in the Commission's 1997 FAC Order and the results of prior FAC audits. This matrix would then be structured into an ordered list of procedures for UPC consultants to follow in performing their review of ELL's FAC filings, accompanying work papers and the company's financial data.

b. Performance of the Audit

Following the successful construction of a FAC Audit Program. We anticipate that the performance of the FAC Audit Program would require an estimated six (6) months to complete. UPC consultants would begin reviewing ELL's FAC filings, accompanying work papers and the company's financial data. In doing so, UPC would draft discovery to ELL, as well as build a database for the tracking, organization, and analysis of asked and answered discovery. UPC consultants would perform each of the procedures in their FAC Audit Program, while comparing the results of those tasks and any findings to precedent found in the Commission's 1997 FAC Order and prior FAC audits to ensure the audit's effectiveness.

In performing the above, our audit procedures as outlined by the FAC Order, would include, but not be limited to:

- a.) A review and analysis of the utility's monthly comprehensive fuel adjustment reporting requirements filed with the Louisiana Public Service Commission.
- b.) If applicable, the development and improvement of internal staff procedures to effectively monitor and evaluate a utility's performance in areas impacting the fuel and purchase power cost which are reflected in the utility's monthly fuel adjustment filings with the Commission.
- c.) A review and analysis of the utility's monthly comprehensive fuel adjustment filings to assure compliance with all pertinent state and federal regulations.

UPC consultants would also assist Commission Staff in reporting Staffs findings in writing to the Commission, identifying any irregularities detected in the monthly fuel adjustment calculations that were incorrectly assessed and applied to Louisiana consumer billing statements or which allowed for the recovery of these unauthorized expenses by the utility. The report should also include a written or executive summary which identifies any cost included in the audit found to be in violation and a recommendation as to the appropriate methodology to be utilized by the Commission to provide for recovery of these funds.

c. Reporting

After having completed its FAC Audit Program, UPC would work with the Commission's Legal, Audit and Economic Divisions to draft audit memoranda and/or pre-filed testimony in support of Staff's ultimate recommendations, together with exhibits supporting the memoranda and/or pre-filed testimony, and assist in the drafting of applicable motions, exceptions, briefing sheets and orders of the Commission. UPC consultants would assist Commission Staff in reporting Staffs findings in writing to the Commission, identifying any irregularities detected in the monthly fuel adjustment calculations that were incorrectly assessed and applied to Louisiana consumer billing statements or which allowed for the recovery of these unauthorized expenses by the utility. Our report would also include a written or executive summary which identifies any cost included in the audit found to be in violation and a recommendation as to the appropriate methodology to be utilized by the Commission to provide for recovery of these funds. We anticipate that drafting audit memoranda and/or pre-filed testimony in support of Staff's ultimate recommendations, together with exhibits supporting the memoranda and/or pre-filed testimony, and assisting in the drafting of applicable motions, exceptions, briefing sheets and orders of the Commission would require an estimated four (4) months to complete. UPC would report its findings to the Commission, as desired by Staff, and attend any and all meetings necessary of it.

3. Workload Management and Distribution

R. Lane Sisung and Paul T. Chastant, III will serve as contacts to LPSC, with Mr. Sisung serving as the primary contact. Mr. Sisung and the team will remain in constant contact with Commissioners, Commission Staff, and intervening parties regarding any and all material matters so as to together provide seamless coverage for the LPSC. Together we will work with Commissioners, Commission Staff and intervening parties to assess needs, determine deliverables and timelines, coordinate our firm's resources, and schedule meetings with the LPSC and other parties to provide analysis and advice.

UPC's staff utilizes a collaborative and fluid team approach. Mr. Sisung will draw upon our individual team members' expertise as needed for understanding and edification of individual issues. By assigning the proper specialist to individual issues as they arise, with Mr. Sisung acting as program administrator, we will be able to effectively meet LPSC's needs. All of this resource coordination will take place seamlessly to the Commission.

4. Action Plan Conclusion

UPC has included this preliminary work plan as reference for discussion with the Commission to demonstrate that we have identified the major tasks needed to successfully complete the work necessary to be the Commission's independent technical consultant in this Docket. This preliminary work plan will form the basis of the detailed work plan that will be agreed upon with Commission Staff and used to perform this Docket. We believe that our process ensures that the work products and deliverables will exceed the quality standards that the LPSC expects from the independent technical consultant awarded this contract.

D. COST PROPOSAL

UPC is pleased to submit the following price proposal to the Commission for consideration.

We estimate that the total cost of labor for the completion of this Docket would not exceed \$29,000 *for the twelve (12) month maximum* Period of Representation. Our rates per hour vary per consultant from \$150.00/hour to \$400.00/hour.

Our labor estimate is based on the maximum estimated costs necessary to provide the Commission with the services of a dedicated team of accounting, finance and regulatory professionals, for the twelve (12) month maximum Period of Representation.

The assigned staff and consultants includes and a team of regulatory economic consultants and utility experts with prior experience in FAC matters and related engagements.

If this project were to take less consulting hours than the hours on which we have based our bid, our total cost would be reduced accordingly.

We estimate that the total expenses necessary for the completion of the project would not exceed \$1,500. These costs reflect our estimate of the travel and lodging costs of experts over a twelve (12) month maximum Period of Representation. UPC would request reimbursement for only those travel-related expenses that are actually incurred, in accordance with the Travel Policies and Procedures Memorandum issued by the state of Louisiana, Division of Administration in effect at the time such expenses are incurred (“Allowable Expenses”). Expenses would be separately disclosed with proof of such expenses attached. Any expenses that exceed the Allowable Expenses would be borne by UPC, unless otherwise specified by the Commission.

We estimate that the total cost of labor and expenses for the completion of would not exceed \$30,500 (\$29,000 of Labor + \$1,500 of Expenses).

UPC understands that Staff would be able to request, and UPC would be required to provide, billing information at any time upon Staff’s Request. Staff, working with UPC, would review all of the bills submitted for payment, including but not limited to conformity with the planning sessions and any amendments. UPC further understands that the Commission shall have the discretion to impose additional safeguards upon the potential bidders at the time such bids are put up for vote, and that it shall have the right to either accept such additional safeguards, or reject them and withdraw their bid. Further, at any time after UPC is selected and hired, the Staff and UPC may agree to further safeguards.

If selected, UPC bills would be rendered in strict accordance with the Commission’s guidelines. UPC would only charge for actual hours of work performed and costs incurred. All UPC bills would be rendered monthly, and specifically identify and describe all work performed, the person performing such work, the hourly rate, the time and charge for such work, and show the total amount billed to date, in accordance with the Commission’s guidelines found in August 4, 2014 General Order.

E. CONFLICTS OF INTEREST

G. CONCLUSION

UPC appreciates this opportunity to respond to the Commission's RFP to serve as the LPSC's independent technical consultant on *Docket No. X-34109* through assisting the Commission's Legal, Audit and Economic Divisions in analyzing fuel purchases and usage by ELL for the years 2014 through 2015. As detailed in the sections above, UPC and its affiliated Sisung Group companies are multifaceted and have extensive experience in a broad range of financially-related areas involving state and local governments. Because we are a Louisiana firm, all of whose employees are Louisiana residents, we take great pride in any and all work that we do that benefits the people of our state, and we believe this project provides just such an opportunity.

Our organization has extensive practical experience in the field of public utility regulation that includes similar practice before the LPSC and other regulatory agencies. UPC has built a team of hand-picked regulatory and utility finance and economics professionals and consultants specifically for their ability to serve the needs of the LPSC in this Docket. Together, our team of professionals and consultants has a vast amount of experience analyzing the operations, books and records of utility companies, FAC and LPSC jurisdictional issues, as well as knowledge of appropriate accounting standards and practices for utilities.

Our professionals have a distinctive style that encourages personal service, excellence and integrity, while our local presence offers the LPSC the benefits of geographic proximity and a wealth of institutional knowledge. Indeed, our robust understanding of Louisiana's laws, regulations, procedures, organization, political environment and financial position, as well as our experience serving the Commission in its review of prior dockets would allow us to be immediately effective in this engagement by virtue of not having to overcome the learning curve that any other firm might encounter. We believe that the combination of our professionals' experience, our local Louisiana presence, our national expertise, and our proven track record of nearly thirty years of exceptional quality and integrity in our dealings offers the Commission an excellent choice for an independent technical consultant to assist in this Docket.
