APPLICATION FOR APPROVAL OF TARIFF RATE CHANGE

Common Carriers operate under tariffs filed with and approved by the LPSC, which shows the services to be rendered and the basis for computation of rates. After the carrier's initial filing all changes must be effected through tariff publications approved by the LPSC pursuant to General order dated October 02, 2012 as follows:

- I. A Common Carrier is hereby authorized to include a range of rates, fares or charges in the Common Carrier's tariff instead of an established singular rate, fare or charge. The tariff shall provide reasonable criteria for the upward or downward movement within the established range. This authorization is subject to Staff's determination that the range and criteria of applicable rates, fares or charges is reasonable for the current market conditions.
- II. If the effective date of the Common Carrier's last increase in rates occurred more than three (3) years prior to the application date of the Common Carrier's current application for a change in rates, fares or charges, and the Common Carrier is not seeking to increase its rates in excess of 10% from the current tariff rates on file with the Commission, then the application is subject to the following approval procedure.
 - A. The application shall be published in the Commission's Bulletin for fifteen (15) days to allow for intervention and public comment.
 - B. If an intervention is not filed within the fifteen (15) day period established in Subsection (A), then Commission Staff shall approve the rate increase and said increase shall become effective upon the Common Carrier's filing of the approved tariff. If an intervention is received then the application shall be subject to approval by the Commission at a Business & Executive Session.
 - C. Upon request by any Commissioner, any application acted upon by Staff in the procedure established in subsections (A) and (B) herein, may be reviewed by the full Commission at a Business & Executive Session.
- III. If the filing date of the Common Carrier's current application for an increase in rates was three (3) years or less since the effective date of the Common Carrier's last rate increase, or the Common Carrier is seeking to increase its rates in excess of 10% from the current tariff rates on file with the Commission, then the approval of the application is subject to a complete rate review by Staff and approval by the full Commission at a Business & Executive Session. In the event of a declaration by the Commission that an extraordinary circumstance has occurred, applications that are subject to this section, may be processed and approved by Staff.
- IV. A Common Carrier that has a tariff on file with the Commission may decrease its rates, fares or charges by filing an updated tariff with the Commission, but will be subject to all provisions of this General Order if the Common Carrier seeks to increase its rates, fares or charges at a later date.
