

Cleco offers more restoration updates for customers impacted by Hurricane Ida
Restoration efforts and damage assessment continue alongside each other

PINEVILLE, La. – Sept. 1, 2021 (5:30 p.m.) – As Cleco damage assessors continue their patrols, the company is providing restoration updates for customers in St. Tammany and Washington parishes.

“While our crews work to restore power, our damage assessors continue to find extensive damage to Cleco’s distribution equipment which includes poles, transformers, crossarms, service wire and substations,” said Clint Robichaux, manager of distribution operations support. “And we expect our distribution damage numbers to increase by approximately 30 to 50 percent as damage assessments continue.”

Distribution damage to-date by the numbers*

Poles	Transformers	Crossarms	Spans of Wire Down	Trees on Wire
198	132	740	1,431	971
<i>*Numbers are expected to increase by about 30 to 50 percent.</i>				

“At the height of the storm, our system statewide showed that approximately 104,000 customers lost power due to Ida with roughly 98,000 customers being in St. Tammany and Washington parishes,” said Robichaux.
